Node – RED Services

| Date	10 NOV 2022
Team ID	PNT2022TMID27535
Project name	Personal assistance for senior who are self- reliant

Using a browser and Node-RED, you may build functionality by connecting data flows across nodes. And by simulating small portions of application functionality amongst IoT devices like sensors, cameras, and wireless routers, it has greatly increased in prominence in the IoT market.
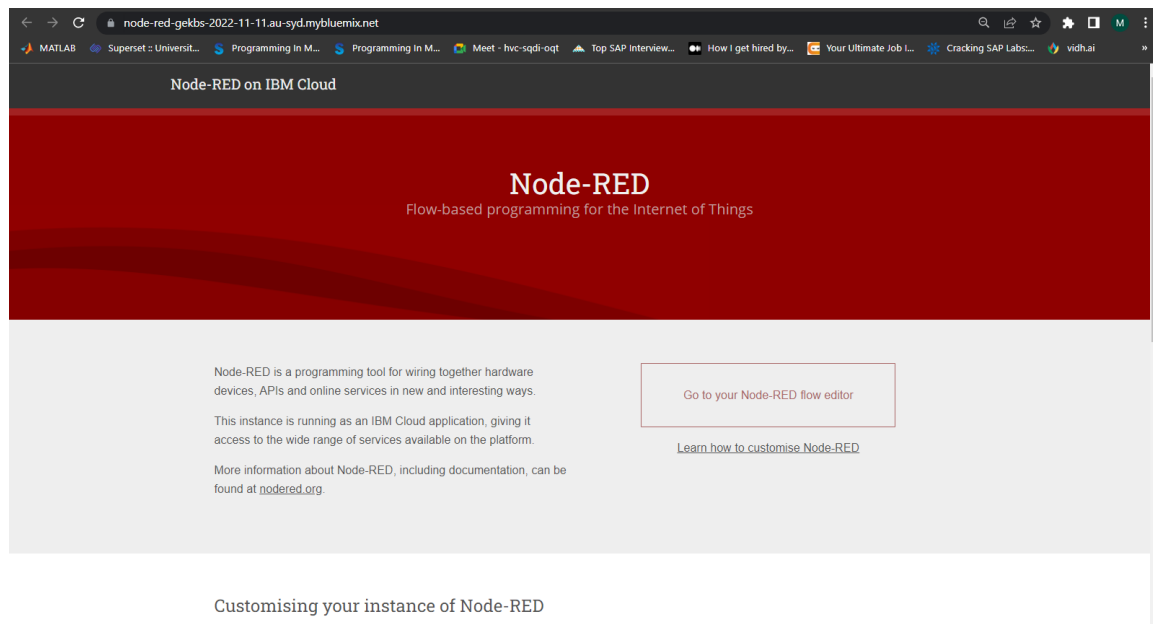

Screen Shots:

## 1)Building of the Node-Red Application:
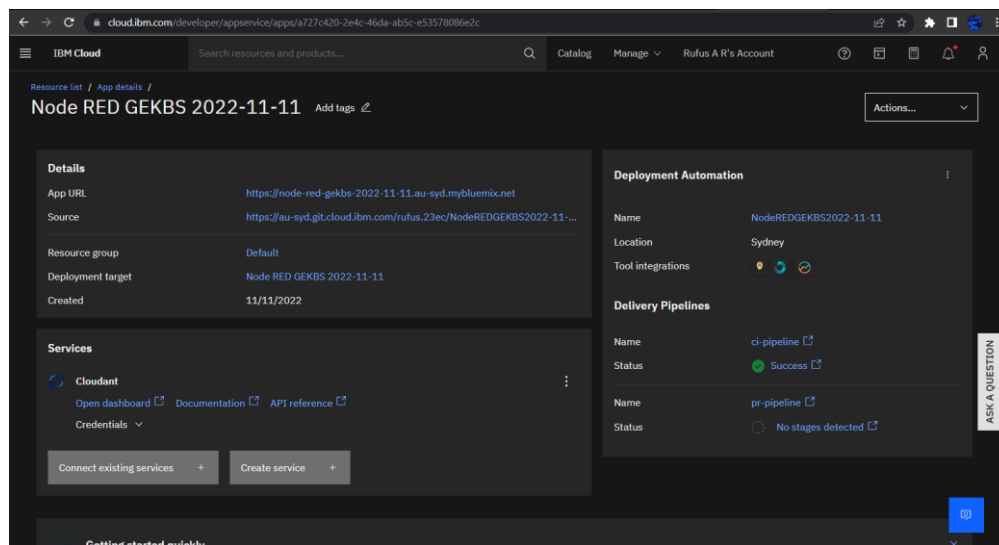

2)After the Creation of the node-red platform:
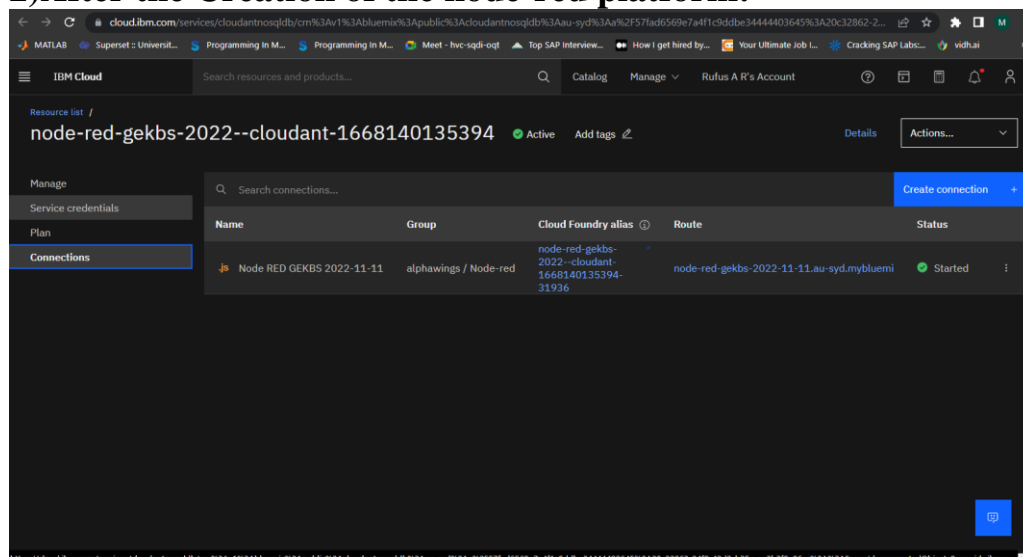

3)Node-red page:

4)Placing the nodes according to the requirements:

5)Creating the nodes and their respective function to be performed:
